

Frame for recessed outlets

TECHNICAL FEATURES

Hide is a frame for recessed electrical outlets compatible with standard 2-gang electrical boxes used in the United States.

The innovative design consists of two elements: a frame with screw couplings for electric, control, or data sockets which houses the plugs within; and a sliding cover lid.

The product is distributed with one preinstalled Leviton® electrical outlet (SKU:T5325-205-0DW Tamper Resistant) and four fixing screws for the recessed box.

Hide creates a volume deficit of 7.33 cubic inches into the recessed box.

Main features

Frame and cover are constructed of flame-retardant PC.

Socket connection compatibility

Screw connection compatible with electrical outlet with 3,28" (+/-0,01) wheelbase and front panel 2,64" x 1,32"

Regulatory compliance

UL E503894

Color

Matt White
